“Education Will Never be as Expensive as Ignorance”

ASHI® Great Lakes Chapter 2010 SPRING KICKOFF!

Education, Education, Education.

This is going to be another exciting year for GLC Education! Incorporating established home inspection tips and practices then combining them with new techniques that will challenge “the way we always do things”.

This Spring Conference at Washtenaw Community College in Ann Arbor MI will be the start of this innovative approach. On Saturday morning David Bunker, our Peer Review Chairman, and the rest of the Peer Review Committee will present in detail the inspection of the Friday peer review house. In the past, we’ve always showed slides of the review house on Friday night in the hospitality suite of the hotel. We look at the photos and wonder if we would have caught the deficiencies. But it’s very informal and we all know problems become obvious when someone points them out.

Now here comes the innovative part. After lunch, we’ve invited Peter Hopkins, Vice President-New Business Development, United Infrared Inc. to speak. He will have gone through the peer review house Friday in preparation for Saturday afternoon’s session. Using his infrared camera after the Peer Review committee does their inspection he will look for conditions not readily apparent during a home inspection.

During his presentation Saturday, he will:

- Give a short introduction of what Infrared is (The Science of it)
- Discuss the application seen with Infrared (in the Home Inspection world)
- Discuss findings and opportunities at the Peer Review House
- Lead open discussion and Q&A

The goal here is not to encourage home inspectors to use infrared cameras during a typical home inspection. Instead the goal is to make you aware that there could be hidden dangers and opportunities.....if you’re willing to change “the way we always do things”.

Here comes the innovative part - partie deux:

As an added bonus we are having Ken English, a Social Media guy, who will show us how to get us into that internet thingie. Ken will show us how to benefit from the new medium for fun and profit.

On Sunday you will have an opportunity to “Stump the Chumps”, led by our very own Education Coordinator, Frank Lesh. Bring along your toughest scenarios and questions and see if this panel can pass YOUR test!

If you want to stretch your thinking and are willing to invest in your future, join us in April at the Great Lakes Chapter Spring Conference.

REGISTRATION DEADLINE IS March 31st

*Pending Approval of 16 ASHI CE Credits
IN and WI CE Credits will be Awarded*

Spring 2010 Conference Registration • Deadline March 31st
